Hello Graham,

Lovely to hear from you [Irrelevant & Sensitive]! Please find attached the current Emergency & Contingency plan for the Manchester Arena together with a couple of plans – of the event floor, the standard seating layout and the concourse. I am aware I need to put together a set of plans which include the further outlying position of the venue but that is a bit of a project because, as far as I am aware, they don't exist so I need to do a bit of a Frankenstein job on what we have.

For now, I hope this is enough?

Take care

Miriam
