

2 trials – very positive feedback

Detailed concept introduced to range of major players / stake holders – already keen to adopt the principals for their own assessments.

They see how they can improve

Another PC for you

No apologies for the recurring theme.

Proportionate in expectation and recommendations

Consistent in application of the process & your approach to sites

Biggest criticism from Corporate level is wide divergence noted from one force to another.

Detrimental to;

Reputation

Credibility

Willingness to engage

Lot of cases it's GOLD standard or nothing

Misses opportunities

Environmental differences

Risk averse

Professional judgment

New model seeks to even this out along with what's on bottom of the slide
