

Schedule of relevant multi-agency talkgroups

available to be used for inter-agency communication on 22 May 2017

Talkgroup description	Name	Intended use
Police Hailing Talkgroup	OS	Enables immediate contact from other police forces, including BTP, to GMP's control room. Monitored 24/7 in the GMP control room.
Multi-agency Hailing Talkgroup		Enables immediate contact from other agencies, including GMFRS/NWFC and NWAS, to GMP's control room. Monitored 24/7 in the GMP control room.
Operational Multi-agency Talkgroups 1, 2 and 3		Enable communication between multi-agency commanders at an operational level (but can be used for multi-agency communication at any level, including between control rooms – see: the FDO's Aide Memoire [INQ040955/1]). Monitored in the GMP control room once established as the agreed method of communication.
Tactical Multi-agency Talkgroup		Enables communication between multi-agency commanders at a tactical level (but can be used for multi-agency communication at any level, including between control rooms). Monitored in the GMP control room once established as the agreed method of communication.
