

Mobilisation of Special Response Vehicle SRV

Any request for the attendance of this vehicle should only be in response from call from the Police via the Duty NILO.

If the SRV is to be mobilised by NWFC to location nominated by the Duty NILO.

There will be an immediate requirement for NWFC to ensure that 2 pumps are returned to station, both plus pumps at and are returned to station to prepare. These resources should not be sent to any other incidents in the meantime.

The Duty NILO should be kept informed of the progress on returning these resources to home station

Code named Action plans have been prepared for mobilisations and should be used in discussion with the NILO.

SRV

In the event of this vehicle being mobilised it must have SRV trained crew. This will be managed at station level and if the skills fall below this level, the station will inform NWFC that the resource is no longer available. The OIC will update NILO and Duty GM of the situation

All mobilisations of the SRV will be in conjunction with NILO

If the SRV is required to attend an incident all steps **MUST** be taken to have both P1 and P2 returned to home station prior to mobilisation. Both pumps should not be used for any other incident in the meantime

When mobilised, the crew from P1 will proceed on the SRV vehicle and P2 will support on If only one pump on the station at time of mobilisation, that crew should proceed in the SRV.

SRV

In the event of this vehicle being mobilised it must have SRV trained crew. This will be managed at station level and if the skills fall below this level, the station will inform NWFC that the resource is no longer available. The OIC will update NILO and Duty GM of the situation

All mobilisations of the SRV will be in conjunction with NILO.
